

22 February 2021 Unconference

09:00 – 11:00	Session 1
	<p>Hey Google, leave those kids alone: Against hypernudging children in the age of Big Data James Smith</p>
	<p>Carebots and the Virtue of Care Nezerith Cengiz</p>
	<p>Deep Learning Land Classifiers for Paleontological Fieldwork Gavin Dollman</p>
	<p>An Ontology on the landscape of Artificial Intelligence Research in South Africa Richard De Kock</p>
	<p>Microarray analysis with Bayesian networks Claudio Jardim</p>
	<p>Artificial Intelligence vs. Machine Learning Emile Engelbrecht</p>
	<p>Building a WhatsApp text classifier Abraham Wannenburg</p>

	<p>Estimation of copulas between solar wind parameters and a geomagnetic index during intense geomagnetic storms Colette le Roux</p>
	<p>A marketing mix optimisation workflow using Bayesian networks Armand Graaff</p>
	<p>Pairwise networks for feature ranking of synthetic data sets Jacques Beukes</p>
	<p>Robust Diarisation Telephone Conversations Using Target Speaker Verification Lucas Van Wyk</p>

12:00 – 14:00

Session 2

Break-out Sessions

30 min.	Break
---------	--------------

14:30 – 16:30

Session 3

Panel Sessions: Young academics in AI and Doing Research in AI
